

Globetrotter Go!

Byte Busters: Metin Ozgenc Mardi, Joshua Crehan, Morgan Costantini, Claudio Ferreira

Elevator Pitch

Looking for up-to-date and reliable flight information? Our website has got you covered! With just a few clicks, you can quickly access the latest flight schedules, arrival and departure times, and more. Our user-friendly interface is designed to make your travel planning hassle-free and efficient, whether you're a frequent flyer or a first-time traveler. Stay informed and make your next trip stress-free with our flight information website.

Concept

Description

A website for the avid traveler! Quick simple search for travel destinations and pricing or check our cheapest flights...you might find your next favourite memory!

User Story

As a frequent traveller, I want to be able to use a travel app to easily plan my trips, so that I can save time and have a stress-free travel experience.

Process

Technology used

- Github
- VS Code
- Github kanban
- Figma
- React
- Node.js
- Ryan Air Api
- Material UI
- Dayjs
- CSS
- Date-fns

Challenges

- Initial API was not useful
- New API limited request
- Incompatible version of Mui
- Time pressure
- Code not working correctly

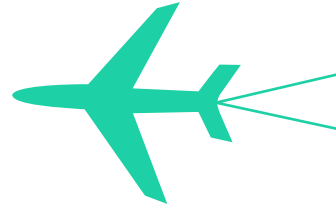

Successes

- Getting the site to work
- Calling API
- Working as at team

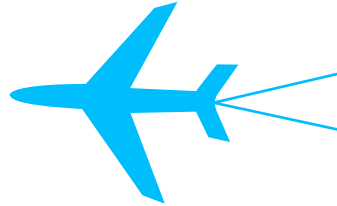

Contributions

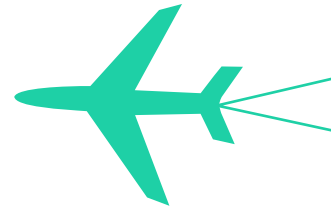

Morgan

- Website idea
- Navbar component
- About us component
- CSS Styling
- Readme

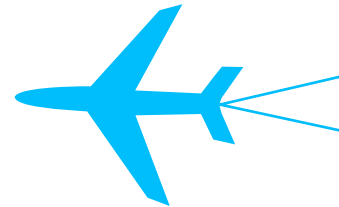

Metin

- Contact us component
- Footer component
- CSS styling

Josh

- Wireframe
- Cheap flights component
- Worked on cheap flights logic
- CSS Styling

Claudio

- Search bar component
- Worked on Search logic
- CSS Styling
- Presentation
